THE + **SMART WAY** TO
PROTECT
YOUR BUSINESS

FIRST GUARDS Security Group Limited

COMPANY

First Guards Security Group Limited (FGSG) is registered, approved and authorized by the Ministry of National Security to provide security services under the guidelines of the Supplemental police act chapter 15:02. Our mission is to provide the highest quality security service to our customers with efficiency and cost effectiveness.

We employ a very selective recruitment process.

To ensure quality performance only the best applicants are selected for our mandatory training program. Adequate education, a clean criminal record, suitable background and proper work history are some of the requirements for admission. Our Personnel Officer verifies the information on each application and performs detailed background checks on each applicant.

Our officers are appropriately and adequately trained.

Officers at First Guards are trained in conformity with a syllabus prescribed by the Police Training Academy. Our officers are also trained in accordance with the National Occupational Safety and Health Standards. Our company policy mandates that officers be adequately trained for any post they occupy and so very frequently our officers receive special training before taking up new duties.

Quality supervision ensures the proper execution of duties.

Regular unannounced visits are made to assignments to ensure that all security procedures are being observed and examine for possible weakness. Every month a Performance and Operational review is conducted for each duty to which our officers are assigned. This document is used to regularly tune our services by highlighting opportunities to improve the quality of service.

By employing First Guards you can:

- Eliminate Personal Risk
- Gain Comprehensive Insurance Coverage
- Enjoy Reduced Insurance Premiums
- Save Management Resources
